

Acquaintance Program of Inter University Accelerator Centre, New Delhi

Venue: Central University of Punjab, Bathinda

4th April, 2016

One day acquaintance Program for providing the awareness about facilities available at Inter University Accelerator Centre (IUAC) New Delhi (an autonomous research centre of UGC) and research opportunities in the field of Accelerator Mass Spectrometry, Material Science, Nuclear Physics, Atomic and Molecular Physics, Radiation biology and other allied interdisciplinary areas was organised on 4th April 2016 at Central University of Punjab, Bathinda. This program was funded by the IUAC, New Delhi. Scientists from IUAC, New Delhi delivered lectures on the facilities and opportunities available at IUAC. In this program emphasis was given on Accelerator Mass Spectrometry and Material Sciences research. Further, there were invited lectures on various topics by faculty members of Central University of Punjab, Bathinda and potential users from other University/College. This program provided a very good opportunity for research scholars and faculty members to know about the facility and scope available at IUAC, New Delhi to strengthen their research activity.
