

WORKSHOP & SPECIAL LECTURES

on

“Techniques of Geological, Geomorphological Mapping and Sampling Process for Geoscience Research”

13th – 17th February 2017 Venue: Central University of Punjab, Bathinda

Five days workshop on “Techniques of Geological, Geomorphological Mapping and Sampling Process for Geoscience Research” was organised by Centre for Geography and Geology that emphasis on the basic techniques for the geological and geomorphological mapping for different purposes and different sampling associated in geosciences research. The basic aims and objectives of this programme lies on imparting the basic ideas of mapping, their significances, concepts of sampling in geosciences research for the targeted participant on M.Sc./M.A. students and Ph.D. Research Scholar for Geography and Geology. The program comprises three days intensive lecture sessions on different topics from invited resource persons from several institutes and two days field works at kalibangan of Rajasthan and Saketi area of Himachal Pradesh. Special lecture was a part of the workshop. Prof. G. S. Gill, Prof. Naresh Kochar, Prof. A. D. Ahluwalia, from Panjab University Chandigarh, Dr. Sunil Mittal from CUP Bathinda and Dr. V. K Sharma, Rtd. Deputy Director General, from Geological Survey of India were speakers in the programme.

Prof. G. S. Gill

Prof. Naresh Kochar

With Prof. Gurtek Singh Gill and Prof. Naresh Kochar, Resource persons

Patron

Dr. R.K. Kohli
Vice Chancellor

Advisory Board

Prof. P. Ramarao,
DAA
Dr. V.K. Garg,
Dean of School

Convener

Dr. K. Milankumar Sharma

Co-Convener

Dr. L.T. Sasang Guite

Secretary

Dr. Kiran K. Singh
