## 14. Evaluation of the course is appropriate to distinguish the students

104 responses

## 15. Any suggestion for improving the curriculum

104 responses

Must be updated with latest research and industry requirements

Faculty members should be given more space when deciding their structure

More elective courses should be offered

More elective courses may be included in the future.

The curriculum should have more content from Organic Chemistry as more question appear from Organic Chemistry in CSIR-NET exams.

Seems to fine as per my views

Time to time re evaluation and valuation will be required

Overall the course structured is fulfilling all requirements of present world in subject of Geography and it should keep update regularly to take pace with changing world.
