Report Administrative Audit-2024

The Administrative audit for various sections of the university was conducted in **October 2024-November 2024** as per the schedule (**Annexure-1**). Committees were constituted which interacted with the section staff and documented their performance in the Performa provided.

Exit Survey from the outgoing students of 4th semester is collected along with the examination form, to know about their experience during the program.

The observations/suggestions submitted by the committee members and suggestions from the student in the exit survey are compiled and same will be sent to the respective sections heads for necessary action:

Sr. No	Section	Comments and Suggestions by the Committees
1.	Store Purchase	<ul style="list-style-type: none"> Intensify the bi-lingual practices Duty chart may be prepared for effective work distribution Periodic performance review of the section to be documented More staff required
2.	Finance & Accounts	<ul style="list-style-type: none"> Required to develop the performance evaluation system in the section Timely processing of payment files and issuing the UC File storage and up-keeping of the files: Indexing may be adopted for easy retrieval of files from the storage <p>Suggestions from the students based on Exit Survey</p> <ul style="list-style-type: none"> Don't delay the scholarship related things. Huge improvement in the finance department payment process that is the worst due to which dissertation work gets effected.
3.	Audit	<ul style="list-style-type: none"> Staff including Regular IAO required Samarth activation for digital file processing
4.	Recruitment	<ul style="list-style-type: none"> Timely completion of assigned work Complete dedication & sincerity. Diverse knowledge & versatility for various rules and regulations. The staff may undergo training for various office procedures.

Internal Quality Assurance Cell

Report Administrative Audit-2024

- One of the nurse is extremely rude who taunts students if we go to health centre for a simple cut which according to 'Her' is just a minor issue and as stated by her we students should not come to health centre for reasons that she personally feels is minor.
- Proper medications are also not available and they are extremely stingy to provide us with the medicines and expects us to come everytime to the health centre to beg for the medications when we have rightfully paid our medical fees every semester.
- Health should be the top most priority for every stakeholder of this University.
- Set up a proper health centre with more qualified people.
- The healthcare centre that is 'available' for students don't really provide the required facility for the students.
- The nurse is the most self-centered person I have met and there have been instances where she has misbehaved with the students and victimized herself in front of the authorities.
- There are students going to AIIMS every week, the ambulance could at least go out on the weekend in the morning, we don't even end up using the medical fees we pay the university for, so why cannot the ambulance provide a shuttle service to the students to AIIMS.
- There should be dental services present at health centre.
- Healthcare facility of the university is very poor. The staff there is unreliable and untrustworthy. Please do something about that to fix it. Once we called the ambulance to go to AIIMS and they said they were busy with other things. Later that day few minutes later, we saw the ambulance being used to pick up things from the mess and transport it.
- The university should provide some emergency health care during dire situations. Moreover, students should be provided time to grieve for their lost friends otherwise I fear the university would just be raising selfish, self-centered educated monsters rather than educated humans.
- Health centre should have enough medicines
- Health facilities should be improved

54.	Museum	<ul style="list-style-type: none"> Can be improved with provision of more showcases, focus lights, more labelling, more boards, etc. Opening and closing time may be displayed on board Requirement of more sub-sections Showcasing the activities of thousands years ago One attendant and cleaner required on regular basis Webpage need updation

Others Suggestions about Curriculum

1. Our university should create an environment where students transforms into a leader of tomorrow. They should know their rights and their duties because only aware and awakened students can make a society and country healthy.
2. A lot of faculty in the department also need to follow the syllabus that is given and teach concepts instead of facts which one can find even in Wikipedia.
3. This is a university where people speak a lot of variety of language. But some professors only know Hindi. Please do check the English-speaking ability of both teaching and non-teaching staffs if you guys believe in inclusiveness.
4. More curriculum activities and accessibility towards clubs/communities like book club, film club with an openness towards discussion and debates, for all departments, would help in an overall development of a student studying in these higher education courses.
5. The professors should remember that not only PhD students' PG students are also here to learn something so they should show some decent amount of attention to them also. The teachers are not interested in teaching so students are not interested in studying.
6. Strict adherence to English as the mode of transmission of education.
7. Need more practical's and some field visits. Classes should not be theoretical based and some interesting activity should be organized not only seminar.
8. Instead of simply imposing Dissertations & Synopses on students, Universities should have the option of having both Dissertations and exams. So that the students who are not interested in doing a dissertation or PhD will have some activities to do.
9. Dept. SCAS that gives two courses, MA Pol Sci. and MA Politics and IR, but the faculty is specialized in IR only, there is no teacher who is for political

- science. please do not give multiple courses if you cannot accommodate proper faculty. The entire focus of the university is on science, and nobody is paying any attention to social science.
10. Should increase our internship duration from one month to six months during entire fourth semester as it is being practiced in some curriculum of other courses and it has become extremely necessary for our field of students to have increased practical exposure.
 11. Course syllabus requires improvement in terms of adding new subjects in order to compete with other universities.
 12. New faculties are disappointing and not updated; choose faculties based on academic qualifications and experiences, not on their political background.
 13. Curriculum needs to change and adapt keeping in mind the future competitive exams. the present curriculum focuses more on assignments and not learning rather than concepts based learning. also very less importance is given to Indian thinkers
 14. The time table schedule of classes is not good at least students should get to self-study three to four days in a week. So need a break in a week like 3 days' regular classes and another day off.
 15. With other departments interaction should be there means lab visits, research laboratory visit, to know what others department does and doing. It would encourage students to explore more about the discipline.
 16. Masters student should be allowed to continue their work in lab even after the PhD student leaving.
 17. Instead of only orienting teachers towards research teachers should increase their efficiency in teaching field also
 18. Funding for the dissertation is very less which makes students stick to *in-silico* works and hands-on experiments are dream for many students.
 19. The curriculum should be planned taking the consideration of employment for the students and industrial knowledge.
 20. The university should hire professionals for any position rather than locals as many of them are unqualified for the job.
 21. Make university free from the dirty politics of teachers and some organization that are affecting the teaching and research of both teachers and students as well

Suggestions for infrastructure

1. Please do green shedding on all paths to protect students from extreme heat
2. University required an open theatre.
3. Should use the solar energy and set up solar panel upon the academic to hostel road. Students will get shadow in summer and University will get electricity.

4. We don't have enough space to sit in the reading room. We have a lot of open space in our campus, but we did not use any plan to create good open space for relaxing.
5. Bicycle stands and free to use Bicycle (within campus) near the gate till the academic block
6. Increase the plantation so that students get fresh air and protect from severe heat.
